

Congress of the United States
Washington, DC 20515

July 9, 2021

President Joseph R. Biden, Jr.
The White House
1600 Pennsylvania Ave., NW
Washington, D.C. 20500

Dear President Biden:

Your administration's decision to go door-to-door to coerce individuals to receive a COVID-19 vaccine is deeply disturbing and violates the privacy of Americans. The private health information of millions of Americans should never be a matter of concern for the federal government. Americans must be free to make their own personal health choices.

On July 6, 2021, you delivered remarks from the White House and made the following statement: "Now we need to go to community by community, neighborhood by neighborhood, and oftentimes, door to door – literally knocking on doors – to get help to the remaining people protected from the virus."¹

That same day, White House Press Secretary Jen Psaki delivered a similar message during the White House press briefing. She outlined five areas that your COVID-19 Response Team is prioritizing, with priority one being "community-by-community, door-to-door outreach to get remaining Americans vaccinated by ensuring they have the information they need on how both safe and accessible the vaccine is."² She also discussed your administration's decision to use "strike forces" to travel into local communities and apply pressure "to get 12-to-18 year-olds vaccinated."³

These statements provoke a serious concern that the federal government is in the process of identifying and tracking the private health information of millions of Americans. There is no scenario where the federal government should be actively entering communities and traveling door-to-door to pressure Americans to receive a vaccine. COVID-19 vaccine information is widely available throughout the country, and Americans have every ability to decide for themselves whether or not they should receive a vaccine.

³ *Id.*

To address these concerns, please provide us with answers to the following questions by July 23, 2021:

- 1) What is the constitutional and statutory authority your administration is claiming to conduct door-to-door vaccine checks and track private health information of Americans?
- 2) Has your administration developed a database to track which Americans have received a COVID-19 vaccine?
- 3) Has your administration developed a database to track which Americans have not received a COVID-19 vaccine?
- 4) Is your administration accessing databases maintained by states, local governments, or private companies to determine who received a COVID-19 vaccine?
- 5) Does the federal government maintain a database to track which Americans have received other vaccines?
- 6) How does your administration plan to identify the homes of Americans who have not been vaccinated?

We look forward to receiving answers to these questions.

Sincerely,

Andy Biggs
